## GERMAN ROUND TRIP IS ALMOST COMPLETED

### Three Million Dollar Loan is Arranged For City

The Mayor announced in the afternoon that the Imperial Bank had arranged the \$3,000,000 loan for the city and that it would be at the Council's disposal very shortly.

### All Reports Indicate That Invaders are Slowly Being Driven out of the Country

Front of Battle Line is Now Extending into the Region South of Arras—Tentative Attempt to Throw a Bridge Across Meuse Succeeds But it is Immediately Destroyed by Allies' Artillery—Offensive Continues in the Woivre District, Notably Between Apremont and St. Mihiel.

London, Oct. 2.—Unless all signs are awry the German armies in France, or at any rate most of them, are nearing the completion of their round trip. This, it is held here, is the only conclusion hinted at even by the Berlin newspapers—to be drawn from the reports, both official or unofficial, of those on or near the scene of action.

It is evident that the progress of the allies on their left is considerable, while the hole through which the Germans might have pierced the line of French fortresses on Meuse river side has been closed.

The fierce battling around the heights of Roye, to the northwest of Noyon seems to have ended in favor of the French. These heights were captured by General Von Kluck's men on Wednesday but on Friday, according to a French report, the allies regained control of the position.

Antwerp, temporarily the Belgian capital, ought to be capable of maintaining a long defence. King Albert is a romantic figure of the war in this city. He constantly goes into the danger zone and his determination, fearlessness and activity recall those of Stadtholder William in the historic siege of Leiden.

That the battle of Gracow which opened yesterday will be a long and arduous struggle no one questions.

General Von Hindenburg, the German commander who scored success in eastern Prussia against the invading Muscovites, has taken supreme command of the combined German and Austrian forces. These undoubtedly are a formidable army though the alleged total of two and a half millions of men is discounted.

The German headquarters staff reports dismiss the situation both in this and the Belgian theater with the curt "no change."

From Petrograd, however, it is officially asserted that the Russian troops continue to drive the enemy from the borders of Suwalki and Lomza governments, and there has been continually determined fighting west of Simno. The German troops which attacked Ossowetz are retreating precipitately to the north.

Petrograd also announces that considerable forces of the enemy are concentrated in the western districts of the provinces of Petrokoff and Kielce, Russian Poland.

The Franco-British naval operations against Pola, the Austrian base on the Adriatic, are viewed with marked interest as they are likely to affect the Italian attitude towards participation or otherwise in the war.

The Montenegrins have commenced their attack of Sarajevo, the fall of which, it is claimed in the report, "seems imminent."

The same announcement says that by the capture of Vlasenitz the Servians have cut off the retreat of the Austrian army.

### ENTIRE COMPANIES ARE EXTERMINATED

Germans Have Suffered Heavily Under Well Directed Field Guns.

THOUSANDS DEAD COUNTED At Several Points Outside Antwerp Corpses Said to Lie in Haaps.

London, Oct. 2.—(12:15 p.m.)—"The Germans have suffered heavily everywhere under the well directed machine gun fire of the Belgians," according to a statement cable from Antwerp by the correspondent of the News.

"At the Woivre-St. Catherine forts alone (outside of Antwerp) the German dead may be counted by thousands. At several points the corpses lie in heaps. Entire companies have been exterminated, while the other troops were driven back at the point of the bayonet."

### Germans are Reinforced at Roye Where Terrific Fight Taking Place, Says Report

BULGAR OFFICERS IN ITALY ARE ORDERED TO RETURN AT ONCE

Rome, Oct. 2.—(7:15 a.m.)—M. Balfiore, the Bulgarian minister to Italy has been instructed by his government to order all Bulgarian army officers in Italy and Switzerland to return home immediately and with money for the journey.

On our left wing the battle continues with terrific fighting, notably in the direction of Roye, where the Germans appear to have concentrated important reinforcements. The action extends more and more toward the north.

Gives Necessary Assurance London, Oct. 2.—Holland has given assurances that it will prevent the exportation of foodstuffs from Holland to Germany, or to other countries at war.

Heights Around Roye Have Been Retaken by French and Holes Through Which Germans Might Have Pierced in the Line of Fortresses at the Meuse Stated to be Closed—Feeling that Battle at Gracow Will be Long and Arduous—Report That Two and Half Million Troops There is Not Believed.

Paris, Oct. 2.—An official statement issued by the war department this afternoon says that terrific fighting continues incessantly near Roye, where the Germans have been strongly reinforced.

The statement says: "On our left wing the battle continues with terrific fighting, notably in the direction of Roye, where the Germans appear to have concentrated important reinforcements. The action extends more and more toward the north."

"The front of the battle line is now extending into the region to the south of Arras."

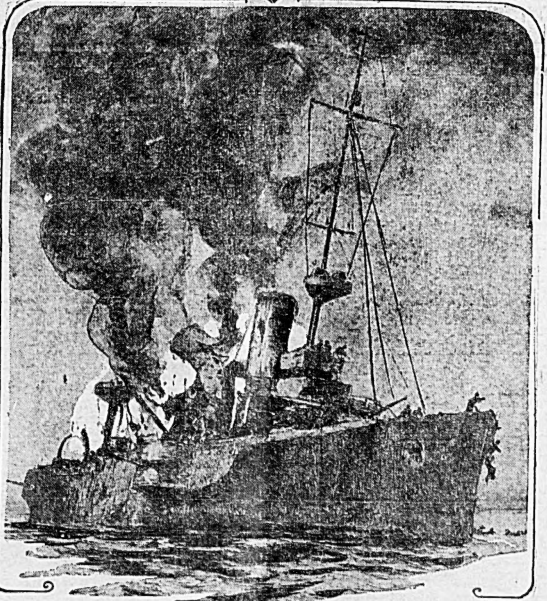

"Upon the Meuse the Germans attempted at night to throw a bridge across the river near St. Mihiel. The bridge was destroyed by our guns."

"In the Woivre district our offensive continues and progresses step by step, notably in the region between Apremont and St. Mihiel."

"On the removal of the front there have been attempted only partial operations here and there."

### SINKING OF BATTLESHIP MAINZ

This drawing was made from a pencil sketch by an English naval officer who was aboard an English torpedo boat which steamed up close to the 'ma' to rescue drowning Germans during the battle off Heligoland. Accounts out of action before the sink.

When battleships go into action, how are the battles fought? What can the new dreadnoughts do? How long will the battle last? It all depends upon the men. Skill, training and cold-blooded bravery, more than ever, determine victories at sea. Romance disappeared with the short-range gun. Science has taken its place.

Fleets no longer spend hours maneuvering for the "weather range," nor do they close in and hammer each other yard arm to yard arm. The 25,000-ton battleship ships about as easily as a tugboat. Battles are decided before the opposing sailors can see each other.

When the great German and English fleets meet at sea the fighting will be decided at a distance of five miles and will end before the fighters enter the range of the heaviest guns of 30 or 35 years ago. Instead of boarding parties and hand-to-hand fighting, the last stage of the encounter will be marked by torpedoes fired at a range of 3,000 yards. An hour of action will settle the supremacy of the seas.

The call to quarters sounds on a dreadnought when the enemy is in sight. Range finding is the hardest job on a battleship. The officer is blinded and choked with smoke from guns and funnels. He is perched on the edge of a pendulum which, even in a light sea, swings through a wide arc. The speed of the ship, changing conditions of

### BRUSSELS FACING STARVATION SAYS EMBASSY EMPLOYEE

Stated Supply of Flour in Belgian Capital Will be Finished Today.

EFFORTS TO GET FOOD FROM ANTWERP FAILED

Military Operations Preclude Any Possibility of Outside Help.

Found Not Guilty

Chicago, Oct. 2.—Mrs. Nellie Higgs, tried for the murder of William V. Miller, a married man, was found not guilty by a jury in Judge Kersten's court today. Her acquittal adds another name to the long list of women similarly acquitted in this city.

### WITNESS INSINUATES POLICE FRAMED UP AN ALLEGED COCAINE USER

"May God strike me dead if I had," said George Thompson in the police court on Friday morning when pleading not guilty to a charge of having conspired with a woman for the purpose of to back him up.

Thompson was picked up by Detective Roberts on Monday afternoon and charged with conspiracy. Later a search of his room at 562 Kinsland avenue resulted in the finding of a small package of cocaine. Thompson laughed at the idea that he was a snow bird and produced witnesses in court to back him up.

One of these witnesses went so far as to insinuate that Thompson was a victim of a frame-up and that the detectives had taken the drug with them when they went to search the room. Judgment was reserved until the afternoon.

MEXICANS AGAIN AT THEIR OLD FAVORITE PASTIME; FIGHT BEGUN

Naco, Mexico, Oct. 2.—The battle of Naco began shortly before noon today with a cavalry screen and skirmishers deploying in the van. Governor Maytorena launched his main force upon General Hill's army of 1,800 entrenched within the town. Hill was prepared either for assault or for siege.

GERMAN DIPLOMAT SLIPS THROUGH ENGLAND WITH A WASHINGTON DESPATCH

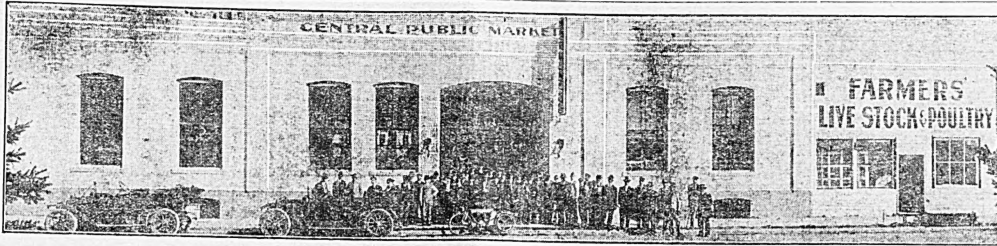

New York, Oct. 2.—On board the liner Liverpool was a German diplomat, Erlich Cedric, who slipped through England without getting caught. He is Bernard Goldsmith, long-time messenger from the German government for the German embassy at Washington. He was a second cabin passenger. The Cedric brought 1,800 passengers.

# MARKET OPENS SATURDAY

*Basket Parade of Housewives Out for Scalp of Common Enemy---The High Cost of Living*

**NEW CENTRAL MARKET WILL BE SCENE OF GREAT HUSTLE TOMORROW WHEN THE FIRST TIME HERE PRODUCER WILL MEET CONSUMER**

First Twenty Women to Attend With Baskets Will be Given Chicken Each Free of Cost—All Arrangements Complete and Opening Promises to be Most Auspicious—Those Attending Will be Able to Buy Anything in the Line of Eatables and Clothing—Estimated that Cost of Products Can be Purchased at Almost Half the Price of that Paid in the Stores—Running Water to Run Through All Fish and Meat Stalls and Absolute Cleanliness is Assured.

War on the high cost of living has been declared in Edmonton. Manager Strata, reinforced by the housewives of the city and thirty-six merchants here, will commence hostilities Saturday morning, when the doors of the Central market will be opened for business for the first time.

Deep-laid plans for the smashing of the enemy have been evolved, and that they will carry there is not the least possible doubt. Living expenses, it is claimed, will be cut almost in two and the townspeople of Edmonton will be able to tide the financial storm that is raging in the country without being deprived of the necessities—and even the luxuries—of life.

Once the hydra-headed monster is begging for mercy it is not the intention of the army that is waging the fight against him to let him recuperate. It will be a fight to a finish. Never again will prices soar, and in future when good times come around again the savings effected by trading at the local market will be placed in the banks to the credit of the people who have hitherto paid exorbitant prices for their goods.

For the information of those who have not yet become interested in the great movement it may be stated that the new market is situated in the Empire auditorium, Second street. This is the largest hall in the city, but from appearances it is not a bit too large for the amount of business that is going to be done there. Already Manager Strata has been inundated with inquiries regarding the opening and the method which will be adopted in running the place.

A Capital representative had a long chat with Mr. Strata yesterday, and it was an interesting one. He is not only convinced, but certain, that the effort will be a great success. He remarked that he had been greatly encouraged by the interest and friendliness that has already been shown to the scheme.

"And why should not everybody in the city be interested?" he added. "It will mean a great saving to the wage earners in Edmonton. Not only the wage earners, but families who do not come under that head. Believe me, there is scarcely one that is not becoming rather alarmed at the upward trend of the cost of living."

With a floor space of 45,000 feet the Empire auditorium is an ideal place for the undertaking. Not only is it the largest hall in the city, but there are many other features about the building which make it excellent. It is well lighted, central, and there is plenty of space in the immediate vicinity for improvements which are already planned. There is a heating and ventilating system so that there will not be the inconvenience that is usual in the average market. All the stalls are nicely fitted up and that they will be kept spotless will be seen to by the manager as well as the merchants who are doing business there. All the assistants must wear white aprons and in the picturesque language of the general "a can will be tied to the first man who does not observe this rule."

The finishing touches are today being put on the inside fixings. Merchants themselves with a big squad of men are in aprons painting their stalls, while some have got so far as to be already placing their goods on view for the expectant public. The nationalities of the tradesmen are almost as varied as the stocks that will be exhibited. There is one point, however, they all have in common, and that is their great enthusiasm for the project.

One feature of the arrangements will be that in each of the meat and fish stalls there will be running water. The big advantages of this idea will be readily seen, and there is no doubt but what it will be appreciated. There will be an attendant on hand all the time who will see to it that no litter or refuse is allowed to lie for any length of time in the building.

And ladies need not be afraid to bring their perambulators along with them. There will be a place for them where the child will be looked after while the mother buys her provisions. This will take a load off the purchaser's mind, and she will be able to devote all her attention to the job of finding out what she wants and getting it.

The days of the market basket have sure returned for several ladies, well-known in social circles in the city, have stated that they will be among the first to be on hand on Saturday morning. And in this connection there is a story that should interest any lady who wishes to obtain a chicken dinner for Sunday free. Manager Strata has authorized the Capital to state that the first twenty ladies who arrive on the scene on Saturday morning will be presented with a chicken each. There's an offer that is going to take some carrying through, because there is going to be a rush at the doors as soon as they open, and a person will need to be on hand real early, judging from present indications, if a free chicken is wanted.

There is also another offer being made by Messrs. Smith and Carl which will appeal to the housewife. These well-known business men, who are opening a meat stall, want suggestions for the name of the stall. They state that they will give to the lady who suggests the most suitable, the best roast they have in the market a week from Saturday. All who join in this profitable competition are asked to write their suggestion on a slip of paper along with their own name and address. By the following Friday the prize winner will be announced in the Capital and the lucky one has only to mention her name at the stall the next time she calls there, when the roast will be forthcoming.

An attempt to describe the premises and the arrangements made would be futile. It is sufficient to say that everything possible for the convenience of the general public has been done, and any suggestions to the manager of good ideas will be appreciated, for a point which the management wishes to impress on the people of Edmonton is the fact that the market is to be run for their convenience alone.

The future has also been looked to. Those in charge wish the market to be one in every sense of the word. Very shortly there will be an extension built quite close to the present building, where poultry can be kept until such time that the owners wish to kill and place for sale. This is considered very necessary, and will be carried out as soon as possible. This will also prove very handy for out-of-town people who bring in their poultry and who, not satisfied with the price or for some other reason, want to hold their stock for a few days.

The question will naturally be asked, how can the goods be sold so much cheaper in the market than in the stores of the city? The answer is very simple. The middleman will be eliminated. The produce will be taken by the producer into the market and the housewife can purchase it first hand without having to pay profits to two or three for handling it.

## MARKET SHOPPING IS REVIVAL OF OLD EUROPEAN CUSTOM

The sound advice to all women of the city is to get a market basket and get on hand early on Saturday morning. By so doing a severe blow will be dealt the common enemy, The High Cost of Living, and Edmonton will be even a better place to live than at the present time—which, by the way, is saying something.

There are some people who do not understand why it is possible to buy meats, vegetables, produce and all foodstuffs cheaper at a market than at a grocer's or meat shop, but looking thoroughly into the matter it is quite evident that the former method of shopping is actually much more economical for the housewife than the latter. In the first place the grocer is usually merely a middleman who buys neither direct from the producer and is seldom if ever the grower of his foodstuffs, so that actually his function is to bring the produce in touch with the consumer rather having a part in the real growing or production of it. The elimination of this man's profits and services has long been a desideratum on the part of careful providers.

It is a wellrecognized condition of affairs that one of the chief reasons for the high cost of living is the somewhat convenient, but highly expensive system of shopping as has grown up on the part of the women of Canada and United States. This method of shopping has been attributed by the commissions appointed to investigate this matter by the governments with being one of the principal causes of the almost prohibitive high cost of living, or as some wag has termed it, the cost of high living.

Mrs. Housewife, did you ever stop to consider just how much you pay each year and each week in the service the grocer gives you? Please appreciate the fact that your grocer and butcher are not in business for their health or simply to accommodate you, but that they are in business for the sole purpose of making money. Of course, to make that money, they are attentive, courteous, have fine stores;—in short they give you service. But, please remember they give you this service for the service for the pure purpose of making money, and it is only because they can make more money that they give you the service. We know it is very convenient to simply go to the "phone and order a few groceries or the meat for the day. It is handy to have the grocer's boy, or wagon or motor delivery, as the case may be, to bring your order to the door a few minutes after you have expressed your desire. It is a splendid thing to have the boy call upon you each morning for your possible wants during the coming day. The week-end price list of special offerings and timely suggestions which your grocer mails to you is full of ideas and well thought out hints. It is a recognized fact if not fully appreciated at all times that the modern housewife secures her daily provender with less effort than did queens of a few years ago. But, the madame must remember that she, and she alone pays for all these conveniences. When you step to the "phone and order a 25-cent piece of meat for lunch do you ever stop to consider just how much extra expense is involved—just how much you pay for beside the meat itself? In the first place is the added expense of the telephone; the grocer keeps a "phone merely for such purposes; and you, although you may not recognize it, are, with the other customers, paying for that telephone. The boy or wagon, or motor car, as the case may be, when delivering this 25-cent piece of meat has to be paid, and it is always a fact that a goodly share of the price commodity is to cover the expense of delivery of same. Then, when you realize that the grocer or butcher himself is only a middleman with a high rental and heavy running expenses, you can gather some kind of idea how much bigger that piece of meat might have been for 25 cents, or how much less than 25 cents the same piece would have cost if you had not had to pay for the service. A few minutes reflection will soon show you, Madame Housekeeper one reason for the present high cost of living.

The purpose of the market is the elimination of these extra expenses and which makes possible the buying of the foodstuffs with greater economy on the part of the housewife. This, to an extent, is merely reverting to the old system in vogue hundreds of years ago in Europe and still largely practised there. It is a curious sight to observe those hundreds of European wives bickering for their daily foodstuffs at any of the markets in the principal cities throughout the continent and England. Much of the thrift and economy of the European nations is a direct result of this shrewd buying by the housewives themselves in the open market where competition is keen among the various stall holders.

The central public market of Edmonton is simply a revival of this well honored practise of thrift and economy which has been in vogue ever since the medieval ages. Since the war has broken out public markets have sprung up all over the Dominion of Canada, and are being largely patronized by the housewives who are now anxious to economize in the price of their foodstuffs. Going to the market direct, and buying where competition exists and often direct from the producers, then carrying home their purchases, a considerable saving can be effected.

Mrs. Housewife get the habit and practise thrift and economy in the days when it is so essential. Go to market yourself instead of using the "phone, choose wisely, and then above all means carry home in your market basket your meats and vegetables instead of paying all of those more or less unnecessary extra costs.

## What the Theater Press Agents Say

### "ARE YOU A MASON" AGAIN ULTRA-POPULAR

The players scored another success Thursday evening in "Are You a Mason?" and were greeted by a very representative and appreciative audience. The applause was frequent and prolonged, the entire cast living up to the reputation earned in previous plays. The class of amusement offered by this talented company is so far ahead of anything of the kind ever attempted here that it is surprising that more people do not attend the performances.

"Are You a Mason?" is a roaring comedy, full of action and the many humorous situations follow each other so rapidly that the spectator hardly has time to draw breath. This laughter was so loud and prolonged Thursday night that the players were compelled to wait to continue their lines, and it is safe to say that crowded houses will greet them for the remainder of the week.

A special matinee will be given on Saturday afternoon and as the prices are extremely popular no one should miss seeing this most-entertaining comedy.

For Thursday, Friday and Saturday of next week, the offering will be the great Gaiety theater comedy, "Stop Thief!" This screaming comedy from the pen of Carlyle Moore is so decidedly amusing that it is difficult to explain the many plausible humorous situations. "Stop Thief!" is so funny that the author very wisely decided to portray the piece in three acts, as the fun is of a nature that had the public been compelled to take it all at once, there would probably have been many yawns to the disease known as laughter. Guy Harrington has been cast as the clever and heart-throbber, while Ned McLeod as the accomplice, and Ned McLeod as the absent minded old man, and with excellent support given by the others of the company, they will give a perfect performance of the laughing comedy.

### "SUNDAY" PLAYING TO CAPACITY HOUSES THIS WEEK.

"Sunday" at the Lyceum this week, is a delightful capacity house. The story concerns a little girl born on Sunday who has been raised in the great Nevada by three "Boys" just boys, but when the test comes they prove to be real men of the finest caliber. Sunday goes away to England to school and upon her return her little Nevada home can hold her no longer, and she leaves for her new home as mistress of the Brimstone Abbey. One of the touching incidents of the play is little Sunday's farewell to the boys who have meant so much to her. "Sunday" is replete with local color and a visit to the Lyceum this week will convince any audience that the Lyceum Players are "delivering the goods."

### EXCEPTIONALLY STRONG FILM PROGRAM AT EMPRESS

The Empress theater presents a strong program for Friday and Saturday: "The Web of Fate," a three-part feature film production, heads the bill. It is a story of the spirit of Mexican vengeance.

John Bunney and Flora Finch play in a screening of the funny farce comedy "Tangled Tangles." Everybody does it and so do Bunney and Flora. Finch. The J. P. of the picture is the chairs do it. It is irresistible. Bunney and Flora Finch are two of the greatest movie stars playing for the pictures.

AMATEUR NIGHT AT BIJOU ONE OF THREE FEATURES

The Bijou will be made the most attractive spot in the city Friday night through a very excellent number of amateur acts that the management has been successful in getting together. It is an amateur night at the Bijou and those who have already attended any of these Friday night entertainments are sure there is none that can equal them. "Last Friday night was good," said the social manager of the Bijou, "but last night, I believe, if present plans turn out as I have arranged for, will equal if not excel it."

The photo-play portion of the program consists of a very splendid selection of motion picture films, "Colleen Bawn," a three-reel production, heads this part of the evening's entertainment. It is a rare treat for the Bijou patrons to see this superb three-part adaptation of Owen Boucicault's immortal drama of Irish life.

The third outstanding feature of this program is a very recent issue of "The Cameraman," specializing in war events, particularly of interest to the English and French.

## THINKS LOSS OF LIFE WOULD BE TOO BIG IF SARAJEVO BE INVESTED

London, Oct. 2.—(7:30 a.m.)—A despatch from Nish, Serbia, according to a telegram from the Rome correspondent of the Exchange Telegraph company asserts that General Janjich, the Serbian commander in chief, has ordered that the attempt to capture Sarajevo be abandoned temporarily as it was found that the Austrians defending the city occupied positions that could only be taken by great sacrifices.

The Serbian general staff considers such action unjustifiable at the present moment.

### COMMANDMENTS OF THE ROAD.

The national council of industrial safety has presented these rules for motorists. They should be respected by everyone who drives an automobile and everyone who bestrides a motorcycle.

First—Be considerate.

Second—Go slow.

Third—Passing vehicles.

Fourth—Approaching crossings; fourth, turning corners.

Fifth—Stop, first at railroad crossings; second, behind standing street cars.

Sixth—Use chain on an slippery pavement.

Seventh—When in doubt go slow.

Eighth—The Detroit Chamber of Commerce asks all motorists to obey to the letter these nine commandments of the road.

Don't run fast into or across main highways.

Don't take blind curves too fast.

Don't run on the wrong side of the road.

Don't pass street cars when passengers are boarding or leaving.

Don't follow a car too close when passing.

Don't forget that a car or a person may not see you until it is too late.

Don't get that the other fellow may be dull, reckless or drunk.

Don't fail to look up for pedestrians.

Don't forget that children dash suddenly and unexpectedly.

Don't take chances. That's the simple embracing rule.

## GRAND TRUNK PACIFIC STEAMSHIP AGAIN IN SERVICE ALONG COAST

The city passenger office of the Grand Trunk Pacific announces that, effective October 1, the steamship Prince George resumes service along the Pacific coast, as follows:

Northbound, leave Seattle midnight Sunday; leave Vancouver, 11 p.m. Monday; arrive Prince George 8 a.m. Wednesday.

Southbound, leave Prince Rupert, 6 p.m. Thursday; arrive Vancouver, 7 p.m. Saturday; arrive Seattle 9 p.m. Sunday.

Added to take a chance. He did, and Mr. Lanigan repeated the trick in Reading. A report of his act went to New York and he has been going continuously ever since.

Mr. Lanigan found that audiences from Portland, Maine, to Seattle laughed at his stunts just as his little audience in the drug store did. He has, however, hopes that it will make him fat. The comedian says that although he has stopped mixing medicine, he doesn't forget the prescription for a contented life. Here it is, just as Mr. Lanigan compounded it: "Mix a little laughter with good fellowship, stir the combination well and season with optimism. That is the prescription for contentment and it will keep you smiling the whole day long."

## MOTHER! GIVE CROSS SICK CHILD ONLY "CALIFORNIA SYRUP OF FIGS."

andou "ysajay" "ysajay" coated, give "fruit laxative" "suo le"

No matter what ails your child a laxative should be the first treatment given.

Look at the tongue, mother! If coated, it is a sure sign your "little one's" stomach, liver and bowels need a gentle, healthy cleansing at once. When cross, peevish, listless, pale, doesn't sleep, eat or act naturally; if breath is bad, stomach sour, system full of cold, throat sore, or if feverish, give a teaspoonful of "California Syrup of Figs," and in just a few hours all the clogged-up, constipated waste,

your bile and undigested food will gently move out of the bowels and you have a well, playful child again.

Sick children need to be coaxed to take this harmless fruit laxative. Mothers of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. They also know it is given.

Ask your druggist for a 50 cent bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with no contempt.

## THE GAY WORLD.

Lady Strathcona has contributed \$50,000 towards the maintenance of the Strathcona Horse, the cavalry regiment raised, equipped and maintained during the South African War by her father, the late Lord Strathcona. The Strathcona Horse will be sent with the Canadian expeditionary force as a regiment of unit.

Y. W. C. A. Physical Classes

Members of Y. W. C. A. physical training classes will be delighted to learn that Miss Ethel Broadbridge of the Alberta college of music, who assisted at the piano at the closing exercises of the classes last May, has been engaged for the whole season for these classes.

Y. W. C. A. Physical Classes

## C.N.R. TO START LINE TO THE HAT

Mayor of Gas City Returns From East—Has Promise From Sir W. Mackenzie

Medicine Hat, Oct. 2.—Mayor M. A. Brown, has returned from a trip to Winnipeg, with the exceedingly satisfactory announcement, upon the authority of Sir William Mackenzie, president of the Canadian Northern railway, that the company will immediately start work on the grading of its line from Medicine Hat north to Hanna, on the Calgary-Edmonton line of the same company. The contract has been let to the Northern Construction company, and several carloads of grading equipment are now en route to Medicine Hat, to start the work at the earliest possible moment.

## THE STRATHCONA HOSPITAL AID SOCIETY

A special button has been struck for the women who have been authorized to visit soldiers' families under the auspices of the ladies' committee of the Patriotic fund, in Montreal. This became necessary owing to the embarrassing condition caused by kind but impractical women who had been "visited" without due authorization. Among the official visitors are the wives of many well-known officers.

## Hospital Aid Meeting

The Strathcona hospital aid society will meet on Monday afternoon at 2:30 o'clock in the south side library hall. All women interested are requested to attend.

## Military Engineering

"Entrenchments" have occupied so prominent a part in all despatches from the war that the subject has been particularly appropriate one for the last three lectures to the "Engineer corps," being organized by A. M. Callahan, company drill will continue for the present at 2:30 Mondays and Sundays and at 7:30 Mondays and Thursdays.

## "Obstacles" is the subject of the next lecture after which "Bridge-building" will be taken up and gone into with the special intention of, if possible, doing some pontoon work during October.

If a rolling stone was able to gather moss, what in the deuce would it do with the stuff?

## AMERICAN CONSUL HAS NARROW ESCAPE DURING REIMS ARTILLERY DUEL

London, Oct. 2.—(7:30 a.m.)—A despatch from Reims, to the Exchange company dated Wednesday, says:

"Reims was the scene of a fierce artillery duel this morning. During the bombardment the American consul, William Bardsley, had a narrow escape. A shell wrecked his residence over which the stars and stripes were flying."

## ORPHEUM IS SHOWING FINE ANIMAL PICTURE

The Orpheum is showing the latest of the finest animal films ever produced, in the current program at the Orpheum picture house. In this film, 1200 persons, and with wonderful and thrilling adventures in the very dark and perilous jungles of Africa. It depicts the life of the forest in their native surroundings. In one part is shown a mighty lion, attacking the home of the tigers. To escape their savage beast, they set fire to their house.

The formal opening of Oscar Hammerstein's new opera house in New York, now called the Lexington Opera house, instead of the Great East Side opera house, has just taken place. Mr. Hammerstein says that henceforth this structure will be known as the "People's Great Picture House."

This immense edifice, seating three thousand persons, and with wonderful and thrilling adventures in the very dark and perilous jungles of Africa. It depicts the life of the forest in their native surroundings. In one part is shown a mighty lion, attacking the home of the tigers. To escape their savage beast, they set fire to their house.

## BELGIUM NATIONAL SONG WILL BE HEARD AT EMPRESS SUNDAY NIGHT

The program to be played by the Citizen's band on Sunday evening at the Empress theater will be of special interest. The Belgian national anthem, never before played in Edmonton, will be taken up and gone into with the evening's entertainment. Miss Helen Webster, popular soprano will be the vocalist. The program follows:

March—"Tompotts"..... Ralph Overture—"Lullaby"..... Tupper

Characteristic—"Vision"..... Miss Valse—"Autumn Eve"..... Courtney

Vocal solo..... Aubrey Laurendeau

The Belgian National Anthem

Emphatic solo—Laurel Wreath..... (J. B. Day)

Medley—Selected Melodies..... Mackle

And other songs..... Mackle

Valse—"Autumn Eve"..... Courtney

Original Interlude—Ketches..... Raymond

The most stirring of film presentations will prevail, excerpts from grand and noble opera, with scenery and costumes, will be interspersed by the ensemble of singers, worthy of Mr. Hammerstein's artistic intentions.

## LETTERS ON ILL-FATED EMPRESS ARE RECOVERED

Montreal, Oct. 2.—Grim reminders of the tragedy enacted off Father Point on May 23 last when the collier, Stord, cranked into the side of the big passenger liner "Empress of Ireland" and sent over 1000 souls to death, are being received in Montreal now which they had passed to friends and Sorrow of families are receiving letters in England and which were on board the vessel when she sank. These have been recovered by divers working in the dark depths of the straits.

## TENDERS

Tenders addressed to the Under-Secretary will be received up till Twelve O'clock Noon on Wednesday, October 14th, for the purchase and removal of the metal clad building situated on the lot adjoining the City Hall on the South side of the River on 4th Ave. (formerly First Avenue North).

The highest or any tender not necessarily accepted.

BOWLERS START TOURNEY  
WITH STRONG ENTRY LIST

Critchley and Stark Lead in Handicap Doubles with Score of 1116—Gordon Leads in Handicap Singles with 576.

The Olympic bowling tournament got away to a good start yesterday afternoon with a fair sized number of entrants. Owing to the long lay-off, the scores were not as large as they would be in the mid season, but some totals were registered, which were fairly good.

In the handicap doubles Stark and Critchley compiled a score of 1116, with a handicap of 16 plus. Critchley rolled a nice consistent game throughout, registering 201, 193 and 186. A total of 180.

Gordon leads the singles with a score of 576, materially aided by a handicap of 84. Gerrie is second with 533 and Holts third with 532.

The following special prizes have been offered by local merchants in addition to the cash prizes.

Grand aggregate for six games (including handicap) pair of silver cut links by D. A. Kirkland, Ltd.

Highest individual game, including handicap, box of cigars presented by H. J. Cigar store.

Least errors in six games, a cap presented by Hamilton and Milne.

Most splits in six games, two ties presented by Stanley and Jackson.

Most splits in six games, \$1.50 box of candy, presented by Charles Hepburn.

Yesterday's scores were as follows:

A Few Stalls Left in Main Market at a Reasonable Rental.

Poultry Dept.

The Stalls in this department are Clean, Sanitary and up-to-  
date. Make your reservation now.

FLOOR AREA, 45,000 FEET.

Apply E. J. STRATA, at the Market.

### FRENCH "REFORMERS" NOT CALLED YET, BUT SHOULD SEND NAMES TO CONSUL

All French citizens belonging to the  
unidentified classes are requested to  
send their names and addresses by  
registered mail at once to the French  
consular agent, P.O. box 618, Calgary.  
The men belonging to classes 1857  
to 1912 both inclusive, which have been  
exempted from military service on the  
ground of ill-health.  
The men exempted in a similar  
way or whose examination has been  
postponed, belonging to the classes  
1813 and 1914.  
Those born in the year 1885.  
In view of the fact that an item of  
news was published in last Tuesday's  
papers saying that young men before  
"reformers" have left Edmonton to join  
their regiment after having been called,  
they have no doubt been called, but  
yet, they are only requested to send  
their names to the French consular  
agent and must not leave before they  
are instructed to do so.

Grand Trunk Pacific  
OFFICIAL SAYS BACK TO  
LAND MOVEMENT HEAVY

"We read every day about the back  
to land movement," said a representative  
of the Grand Trunk Pacific official, "but you  
don't know anything about it."  
"Not by dozens, nor by scores, but  
by hundreds, are the men and their  
families going back to their home-  
steads and farms. The back-to-land  
movement started some weeks  
before the war, and has increased  
gradually ever since. Many of them  
were men who had their homesteads  
years ago and got their patent. When  
times got so very good in Edmonton,  
they came here and accumulated  
money and now they are returning  
with stock and outfit by the car load."  
He stated that the railroad covers  
half rate on car load lots of settler's  
goods and that where stock was being  
shipped, one of his companies was  
able to look after them.  
"And the reason is," he concluded,  
"that they can live better on the land."

Gerald V. Pelton, barrister, has been  
requested to run for alderman by the  
large number of their supporters, among  
them being Arthur Murphy, J. P. McCallum,  
J. V. MacCormack, E. Pratt, William  
Alex. Sumner, here, and accounted  
C. W. L. MacKellie and others.  
"Harry Watt, a Russian, while out  
with some business connections in the  
evening, became slightly intoxicated  
and started to throw beer bottles  
at some of his contacts at the hotel.  
He was arrested and in the police court  
Friday morning was assessed \$10 and  
costs of one month in jail."  
Max Ramm, formerly a sailor in the  
German navy and recently junior in  
the city police station, who stole some  
furniture from a veranda on Victoria  
avenue on Thursday afternoon, was fined  
\$25 and costs by Magistrate Belcher  
on Friday.

That Alberta's gift of 5,000 bags of  
four for the Belgian sufferers will cost  
the provincial government approximately  
\$15,000, is the statement of Hon.  
Duncan Marshall, minister of agricul-  
ture. This is at the rate of \$3 per bag.

The city commissioners are desirous  
of putting into effect the using of the  
new street names as adopted over the  
months ago. Commissioner Chalmers  
in office, refused to adopt the new  
system on the street cars, but this will  
be done in the near future and signs  
on the cars will be changed accordingly.

Commissioners Chalmers and Deputy  
Commissioner of Finance Richardson,  
have vacated their offices in the city  
hall. Until such time as the new divi-  
sion of duties is arranged, matters per-  
taining to the commissioners will be  
dealt with by the commission board and  
signed by the two remaining commis-  
sioners.

There will be no further purchasing  
of newspapers in street cars from the  
small "newsies" as he has been in the  
past the conductor and up the aisle of  
the fast moving vehicle. The city  
commissioners are determined to put  
a stop to having the newsies jump on  
the cars. The reason is that a num-  
ber of accidents, some of them fatal,  
have occurred in the city recently.  
One action against the city about a  
year ago was for \$10,000 and brought  
by the guardians of a newborn who  
was badly injured. From this time  
on, newsies must pay a fare to ride  
on the cars and will not even then be  
allowed to sell papers on the cars.

The committee which has charge of  
the collecting of the subscriptions for  
the Canadian Patriotic and civil relief  
funds, report that to date in the neigh-  
borhood of \$5,000 has been collected.  
In addition to this will come one-half  
of the amount from the civil service  
fund which will be about \$1,000. It is  
hoped that before the campaign is com-  
pleted that a sum near \$100,000 will  
have been secured. The other half of  
the civil service donation will go to  
the southern branch of the fund whose  
headquarters are in Calgary.

Willis Chipman of Toronto, consult-  
ing engineer for the city, is preparing  
a report on all power offers recently  
made to the city and has written the  
commissioners asking that plans of  
locations and transmission lines in  
connection with the offers be forwarded  
him. His reports are expected to be  
ready within the next six months.

Premier Sifton returned from Cal-  
gary on Thursday, where he was pres-  
ent at the organization of South Al-  
berta Patriotic association. The divi-  
ding line is the southern boundary of  
township 46, which for the most part  
is the north line of the Red Deer con-  
sistency. The premier stated that the  
monthly contribution of the provincial  
civil servants will be divided equally  
between the two funds.

JUDGMENT TO BE GIVEN  
MONDAY IN APPLICATION  
UNSEAT MAYOR AND EAST

In the action of Ed. Alderman Liv-  
ingston in the supreme court to un-  
seat Mayor McNamara and Alderman  
East Thursday afternoon Justice Ives  
cut short the application of C. A. Dick-  
son, appearing for Mr. McNamara and  
East, made his short comment and  
ended the hearing by reserving judg-  
ment when judgment will be given.

This is the second time the case has  
been before the court. The first time  
the action against the defendants  
were heard jointly and the case dis-  
cut at the organization of C. A. Dick-  
son, appearing for Mr. McNamara and  
East, made his short comment and  
ended the hearing by reserving judg-  
ment when judgment will be given.

The 1914 children's season is open  
and the civil relief department will  
be pleased to receive any surplus birds  
hunters may bring in.

There are many instances where men  
go out just after the ducks, get a con-  
siderable number and let many of them  
go to waste.

There are numbers of families who  
have not tasted butter meat or fish  
of any kind for weeks and some for  
months.

If any parties will advise the relief  
department of their gifts they will at  
once collect them and place in cold  
storage and see they are distributed  
wisely throughout the city.

The Y. W. C. A. employment bureau's  
phone number has been changed to  
284.

The executive of the relief committee  
of the Canadian patriotic fund meets  
at room 516, Civic block at 4:30 p.m. every  
except Saturday for the purpose of re-  
ceiving information concerning de-  
pendents of reservists of the allied  
forces and of the Red Cross fund of the  
country north of the Red Deer river.

After the August 1st the Empire  
rummage sale there will be an auction  
Saturday afternoon, beginning at 2:30,  
which everything left over will be  
sold.

### EDMONTON IN BRIEF

In accordance with orders received  
from headquarters at Calgary, the sig-  
nalling section of the 19th Alberta  
Infantry will erect temporary wire-  
less stations for purposes of instruc-  
tion only, and with no expense to the  
public. The O. C. signalling section  
or one of his non-commissioned officers  
must control these practices. Wireless  
signalling for sending or receiving news  
is not permitted in this district, except  
by government supervision and then  
only by special authority. The ad-  
ministrator has received orders from  
the office of the regiment that this order  
be properly carried out.

A meeting of all the men who signed  
cards to join the Highland regiment  
now forming in Edmonton will be held  
in Albion hall, corner of Howard and  
Edinburgh, on Monday evening next at  
8 o'clock. All Scotsmen and others in-  
terested are invited to the meeting, at  
which organization and enrolment will  
take place.

The 21st International Irrigation con-  
gress will be held in Calgary from  
October 5 to 12, inclusive. There will  
be delegates from every state in the  
union and a splendid program has been  
arranged. One day of the congress  
will be devoted to a trip from the city  
across, covering 160 miles journey  
through the irrigation block lying to  
the east of Calgary, and a visit of in-  
spection to the Horse Shoe Bend dam,  
near Bassano. The city of Edmonton  
has been invited to send delegates and  
Mayor McNamara will be pleased to  
hear from any citizens who would like  
to attend the congress and represent the  
city of Edmonton. Credentials may be  
obtained on application at the mayor's  
office.

Gerald V. Pelton, barrister, has been  
requested to run for alderman by the  
large number of their supporters, among  
them being Arthur Murphy, J. P. McCallum,  
J. V. MacCormack, E. Pratt, William  
Alex. Sumner, here, and accounted  
C. W. L. MacKellie and others.

## FAMOUS MINER IS TODAY "WORKING" ON SASKATCHEWAN

Fifteen Years Ago Sold Cele-  
brated "Foley" Find in Port  
Arthur District.

BELIEVES BIG STRIKE  
WILL BE MADE NORTH

Once Said to Have Been Worth  
Quarter Million, Now Busy  
With Grizzle.

The name of Tim Foley, old-time  
miner, prospecting and natural good  
fellow, is known to many in Canada  
today. Newspaper articles have been  
written about him and his grizzled  
features have been read and read, and  
even his picture appeared in more  
than one mining journal. He owned the  
rich quartz mine by that name in the  
Port Arthur district.

But nobody ever dreams that Tim  
Foley, once worth a quarter of a mil-  
lion today, with pick, shovel and  
grizzle, is at the river mouth of the  
Saskatchewan near the high level  
bridge for gold. But that is the  
fact, and a visit to the river will re-  
veal the truth of the statement.

For Tim Foley, somewhat bent with  
the weight of years of outdoor work  
and the color of an Indian, is work-  
ing day in, day out, for what he can  
make out of the river.

The old miner says that the Foley  
mine which he once owned and sold is  
now one of the richest in the world in  
the Port Arthur district. He also states  
that, with another young miner,  
George Nicholson, he is planning to  
buy the mine and to work it for the  
fourth century next spring in hopes  
of making a "strike."

In the meantime Tim Foley is glad  
of the opportunity to make good  
wages.

CHINESE HOMESTEADER  
WOULD JOIN REGIMENT  
TO FIGHT FOR BRITAIN

What are believed to be only Chinese  
homesteaders in Alberta, namely  
Mah and Sam Wing, are in the city  
today renewing old acquaintances  
among the Chinese.

It is now two years ago since Charlie  
and Sam fled on homesteads side by  
side, some eight miles from the city  
of Athabasca and this is their first visit  
to Edmonton since that time.

The men formerly operating an laundry on  
Nanango avenue here, and during their  
six years residence collected sufficient  
money to give them a reasonable start  
on their land. The Chinamen are  
cousins and report success on their  
land.

They have not seen other Chinamen  
from the time they first went on their  
homesteads until arriving in Edmonton  
this week, nor had they heard about the  
war until they arrived here. One of  
their first questions after hearing about  
the war, was if there was to be a  
Chinese regiment sent to the aid of  
Britain.

EX-POLICEMAN GETS \$50  
FOR INJURY TO REP; HE  
SUED FOR TEN THOUSAND

Claiming \$1000 damages to his reputa-  
tion, James Campbell, ex-policeman  
for the city, brought action in the  
supreme court before Justice Ives, against  
George Nicholson, Friday morning  
he was awarded \$50 and costs.

The action arose out of a statement  
made by Nicholson in the city of  
Athabasca, where he is a constable,  
Anthony Shute and Daniel Fraser, of  
the police department, when the de-  
fendant, Nicholson, claimed a reward  
by Campbell previous to the police in-  
vestigation. The words over which the  
plaintiff brought action are as fol-  
lows: "Thanks very much Mr. Camp-  
bell, I will have you put out of busi-  
ness next month. I will have you put  
out of business next month. I will have  
you put out of business next month."

Tim Foley is glad of the opportunity to  
make good wages.

CHINESE HOMESTEADER  
WOULD JOIN REGIMENT  
TO FIGHT FOR BRITAIN

What are believed to be only Chinese  
homesteaders in Alberta, namely  
Mah and Sam Wing, are in the city  
today renewing old acquaintances  
among the Chinese.

## JOHNSTONE WALKER'S DAILY STORE NEWS

### Your Last Opportunity to Profit by the Import Sale of Bedding Is Saturday

THE success of this sale warrants us giving it a regular place on the store business calendar.  
Housewives, rooming house and hotel keepers, in great numbers have followed this event  
daily, particularly in its generous savings. All have seen what's to be gained by foresight in  
providing bedding needs when the opportunity presents itself.  
Saturday is YOUR last—Can you afford to miss it?

WHITE ENGLISH WOOL  
BLANKETS SALE PRICE 4.50  
An excellent import value in pure Eng-  
lish wool yarns in nice clear white  
quality, free from grease, closely woven  
and well combed. Finished with pink  
or blue borders and nicely whipped.  
Size 40 by 80, weight 6 lbs. Import  
Sale Price .....\$4.50  
Same quality and weight in Canadian  
Wool at, per pair .....\$4.75

Pure Scotch White Wool  
Blankets, SALE PRICE 6.25  
A remarkably good value only made pos-  
sible by import direct from the maker.  
Made of finest Scotch wool yarns thor-  
oughly bleached and scoured and free  
from all imperfections. Soft and thick.  
Large size 68 by 86; weight 7 lbs. Im-  
port Sale Price .....\$6.25

## GERMAN FUND TRIP IS ALMOST COMPLETED

### Three Million Dollar Loan is Arranged For City

The Mayor announced in the afternoon that the Imperial Bank had arranged the \$3,000,000 loan for the city, and that it would be at the Council's disposal very shortly.

## All Reports Indicate That Invaders are Slowly Being Driven out of the Country

Front of Battle Line is Now Extending into the Region South of Arras—Teuton Attempt to Throw a Bridge Across Meuse Succeeded But it is Immediately Destroyed by Allies' Artillery—Offensive Continues in the Woerw District, Notably Between Apremont and St. Mihiel.

London, Oct. 2.—Unless all signs are awry the German armies in France, or at any rate most of them, are nearing the completion of their main drive. This, it is held here, is the danger zone, the hinge at even by the Berlin newspapers—to be drawn from the reports, both official or unofficial, of those on or near the scene of action.

It is evident that the progress of the allies on their left is considerable, while the hole through which the Germans might have pierced the line of French fortresses on the Meuse river side has been closed.

The fierce battling around the heights of Roye, to the northwest of Noyon seems to have ended in favor of the French. These heights were captured by General Von Kluck's men on Wednesday but on Friday, according to a French report, the allies regained control of the position.

Antwerp, temporarily the Belgian capital, ought to be capable of maintaining a long defence. King Albert is a romantic figure of this war in this city. He constantly goes into the danger zone and his determination, fearlessness and activity recall these of Stadtholder William in the historic siege of Leiden.

That the battle of Cracow which opened yesterday will be a long and arduous struggle no one questions.

General Von Hindenburg, the German commander who scored success in eastern Prussia against the invading Muscovites, has taken supreme command of the combined German and Austrian forces. These undoubtedly are a formidable army though the alleged total of two and a half millions of men is discounted.

The German headquarters staff reports dismiss the situation both in this and the Belgian theater with the curt "no change."

From Petrograd, however, it is officially asserted that the Russian troops continue to drive the enemy from the borders of Suwalki and Lomza governments, and there has been continually determined fighting west of Simno. The German troops which attacked Ossowetz are retreating precipitately to the north.

Petrograd also announces that considerable forces of the enemy are concentrated in the western districts of the provinces of Petrof and Kieff, Russian Poland.

The Franco-British naval operations against Pola, the Austrian base on the Adriatic, are viewed with marked interest as they are likely to affect the Italian attitude towards participation or otherwise in the war.

The Montenegrins have commenced their attack of Sarajevo, the fall of which, it is claimed in the report, "seems imminent."

The same announcement says that by the capture of Vlasenitz the Servians have cut off the retreat of the Austrian army.

## BRUSSELS FACING STARVATION SAYS EMBASSY EMPLOYEE

Stated Supply of Flour in Belgian Capital Will be Finished Today.

Efforts to get food from Antwerp failed, inasmuch as Brussels is in charge of the Germans it is in effect German territory. Neutral nations could not undertake to supply food to Brussels even if the transportation facilities were not practically cut off by losses of military operations.

## ENTIRE COMPANIES ARE EXTERMINATED

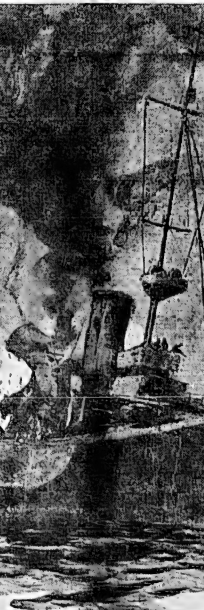

Germans Have Suffered Heavily Under Well Directed Field Guns.

THOUSANDS DEAD COUNTED  
At Several Points Outside Antwerp Corpses Said to Lie in Heaps.

London, Oct. 2.—(1:35 p.m.)—"The Germans have suffered heavily everywhere under the well directed machine gun fire of the Belgians," according to a statement issued from Antwerp by the correspondent of the News.  
"At the West-End, Catherine forts (near Antwerp) the German dead may be counted by thousands. At several points the corpses lie in heaps. Entire companies have been exterminated, while the other troops were driven back at the point of the bayonet."

## SINKING OF BATTLESHIP MAINZ

This drawing was made from a pencil sketch by an English naval officer who was aboard an English torpedo boat which watched up close the sinking of this battle ship that the German battleship was completely riddled and put out of action before she sank.

When battleships go into action, how are the battles fought?

What can the new dreadnaughts do? How long will the battle last?

More smolder of smoke on the horizon. By the time the range officer mounts to the fighting top, the ships, approaching at 28 knots an hour, are in range, although 16 miles distant. At 10 miles the leading ships fire trial shots to correct the range, and a few minutes later the steel monsters are fair enough targets for 13-inch guns.

Every ship of the blue carries from ten to twelve of these rifles, which cost \$10,000 apiece. The gun fire 800-pound armor-piercing shells at the rate of two a minute. At 10,000 yards such projectiles cut through the heaviest armor made as easily as you slice a melon.

All of these guns are under the control of one man, not the captain, but the range officer, high up on the military mast. He finds the distance of ship from ship by measuring the angle between the guns and their target. This angle, when expressed in yards, is the range, and is telephoned to the gun captains in the turrets.

Range finding is the hardest job on a battleship. The officer is blinded and choked with smoke from his own gun. He is perched on the end of a prodigious which, even in a light sea, sways through a wide arc. The speed of the ship, changing conditions of

## Germans are Reinforced at Roye Where Terrific Fight Taking Place, Says Report

BULGAR OFFICERS IN ITALY ARE ORDERED TO RETURN AT ONCE

Rome, Oct. 2.—(7:15 a.m.)—M. Ruffo, the Bulgarian minister to Italy has been instructed by his government to order all Bulgarian army officers in Italy and Switzerland to return home immediately and also to provide them with money for the journey.

Given Necessary Assurance  
London, Oct. 2.—Holland has given assurance that it will prevent the exportation of foodstuffs from Holland to Germany, or to other countries at war.

Heights Around Roye Have Been Retaken by French and Hole Through Which Germans Might Have Pierced in the Line of Fortresses at the Meuse Stated to be Closed—Feeling that Battle at Cracow Will be Long and Arduous Struggle—Report That Two and Half Million Troops There is not Believed.

Paris, Oct. 2.—An official statement issued by the war department this afternoon says that terrific fighting continues incessantly near Roye, where the Germans have been strongly reinforced.

"On our left wing the battle continues with terrific fighting, notably near Arras. Here, where the Germans appear to have concentrated important reinforcements. The action extends more and more toward the north."

"The front of the battle line is now extending into the region to the south of Arras."

"Upon the Meuse the Germans attempted at night to throw a bridge across the river near St. Mihiel. The bridge was destroyed by our guns."

"In the Woerw district our offensive continues and progresses step by step, notably in the region between Apremont and St. Mihiel."

"On the remainder of the front there have been attempted only partial operations here and there."

Female Rat and Her Unwelcome Family Discovered Here and Promptly Shot

MORE MAY BE EXPECTED: INVASION SLOW BUT SURE

Few Years Ago None in Manitoba; Now They are Quite Common in Winnipeg.

Where is the other rat or where are the other rats? A large mouse brown female rat, with a litter of young ones, was found, and with her offspring killed, in a building on the city outskirts on Wednesday, the first of the species, it is believed, that has ever been found in Edmonton.

For some time past, the owner of the place, Alfred Peters, had been troubled by the presence of some animal in the shed. Articles of food placed in the shed had disappeared, boxes containing grain had been gnawed, and from the extent of the mischief it was evident that the humble mice were not to blame. Squirrels were at first suspected but on Wednesday Mr. Peters made a discovery.

He discovered a hole in the floor. Taking up the board through which the hole had been cut, underneath he found five little rats, evidently only a day or so old. For a moment or so Mr. Peters, who has lived most of his life in his part of the country and has seldom been in districts where the brown rats are plentiful, was puzzled and could not imagine what they were. As he gazed, however, the mother rat scurried from behind one of the studs and he rushed to their aid. He did not kill the young ones immediately, leaving them until he procured a small cat for the purpose.

With it he despatched the mother and also did away with the young. He waited quietly, but saw no signs of any others.

Rats as a rule are not pioneers. They prefer to have others go ahead to make their way, and in fact, quite content with other parasites, to trail along in the wake of civilization. Although the rats are not yet numerous in this city, they are slowly forcing their way westward, brought in from infested districts, the rats, being the vanguard of the army.

As an illustration of how they travel, it may be said that a few years ago there were none in Manitoba, but the construction of railroads from the south, however, they began to appear in the southern part of the province, and later were discovered in Winnipeg.

Their migration is slow but sure. The railroads take every precaution that rats are not lurking in freight cars brought in from infested districts, the authorities are on the alert for their appearance, but still they move forward.

How this rat or rats, for indication to the fact that there are more than one in the city, arrived, is a mystery. The owner of the shed declares that no signs of any description received from outside parties, have been stored in the building, and that he is as much in the dark as anybody else. In the meantime the residents of that section are on their toes, looking for the rats, prepared to mete out instant death to the first one they meet.

Many Lawyers Killed  
Paris, Oct. 2.—The French bar has suffered the fortunes of war. In the opening of the session of the courts today, the public prosecutor, Jules Herbeaux, announced that three judges of the Tribunal had been killed. A list of dead issued by the war office contained the names of many lawyers.

## FIRST OF PACIFIC HALIBUT BY G.T.P. NOW RUSHING EAST

Five Specially Constructed Refrigerator Cars Carry Rich Cargo by Express.

VALUED AT \$90,000; IS GOING TO THE ATLANTIC

Man Accompanies Each Car and New Ice is Supplied at Divisional Points.

One hundred and fifty thousand pounds of fresh halibut, representing a value of \$90,000, passed through the city today over the Grand Trunk Pacific from Prince Rupert, B.C., to Toronto, Montreal, Chicago, New York and Boston, being the first shipment of fresh fish to have ever been shipped to the east over the new transcontinental line.

It will readily be seen how valuable the fish are, and how much they are valued, that the opening of a new market for the month fish companies of Prince Rupert.

The shipment was attached to the Grand Trunk Pacific passenger train from Prince Rupert and was continued in five specially constructed refrigerator cars. The fish are being sent by express and are being handled by the Canadian Express company.

It was reported by the Grand Trunk Pacific that the shipment was valued at \$90,000, and that it was the first shipment of fresh fish to have ever been shipped to the east over the new transcontinental line.

This halibut, some of them weighing 200 and 300 pounds, are caught mostly by Japanese native boats, and find employment at the great canneries at Prince Rupert. Shipments of canned goods are sent from the coast nearly every day, but these are sent by freight.

It will be readily understood that there is a necessity for rapid transport of fresh fish and for this reason they are sent by express. In the specially constructed cars, the man accompanies each car, in order to keep it at a certain grade and temperature. At each divisional point from coast to coast, an employee of the express company, having been wired ahead to be ready with the ice, supplies new ice all along the line, thus keeping the fish in the best possible condition until their arrival in the east. No delay is made in supplying new ice, as the cars are attached to regular passenger trains which cannot be held late. Previous to getting in touch with the Prince Rupert fish companies, the eastern markets have been getting their supply largely from New Foundland.

Many Lawyers Killed  
Paris, Oct. 2.—The French bar has suffered the fortunes of war. In the opening of the session of the courts today, the public prosecutor, Jules Herbeaux, announced that three judges of the Tribunal had been killed. A list of dead issued by the war office contained the names of many lawyers.

# BATTLE OF THE CONTINUES. BUT WHOSE FAVOR CENSOR REFUSES AS YET MAKE CENSOR

Two and Half Million Germans and Austrians Concentrated at Crows Ready for the Russian Assault Which is Probably Now Taking Place—Germans Insist They Have Captured Two Forts at Antwerp, But This is Denied by the Defenders—Montenegrins and Servians Slowly Advance in Bosnia.

London, Oct. 2.—Though all reports seem to agree that the German right in France has been bent back, the cautious tone of the brief official statements indicates that the battle of the Aisne is far from decided, and the British public, showing the patience that has characterized their demeanor since the outbreak of hostilities, find a sentimental stimulus in the survival of the fine Indian contingent on French soil and the gallant little units of the German and Austrians who, headed by their king, seek to check the German belagers.

Whether two forts have fallen near Antwerp as the Germans insist or whether the Belgians have so far repulsed the artillery onslaught, is a matter of conjecture here.

From the east through various sources comes news of the Russian assault on Grozny and its vicinity where two and a half million Germans and Austrians are said to be concentrated. So many conflicting reports have been received concerning the Russian advance through Galicia, however, that the public is inclined to await further details.

The London press, editorially and in its news columns embellished with pictures, make a feature of the landing of the Indian troops, and congratulate the war office on the successful feat of moving many transports from India without a hitch. Editorially the press emphasizes the spirit of patriotism of the Indians which answers once for all, they say, all foreign critics who maintained that in time of stress the Indians would prove unfaithful. Only guesses can be hazarded as to the strength of the Indian force and their disposition, but, of course, whatever has been done, has taken place long before the censor lifted the veil.

Whether the allies the Germans held St. Mihiel, between Verdun and Toul, is still undisclosed by the official statements from either side, nor is the situation around the heights of Roye, on the French left, clearly defined.

Last night the British press communicated that the "heights of Roye were taken on September 30." This was preceded by the French official communication saying that violent fighting there had resulted in favor of the French. The London papers insist on the cryptic wording of the German statement is tantamount to an admission that the heights have been taken by the allies. However, this is a matter of inference only.

"Meanwhile, the Servians and Montenegrins advance slowly but surely in Bosnia. Breaking the stubborn resistance they occupied September 30, Bosnian and several other towns in the vicinity, and are now advancing toward Sarajevo."

If the battle of Grozny is in full swing then it is unquestionably one of the greatest struggles of this war, and possibly the forerunner of even more colossal engagements which will rage in Silesia.

Nothing definite has been heard in the last 24 hours of the whereabouts of the German emperor, but Petropod despatches say he is undoubtedly present at the engagements on the east Prussian frontier where the Russian infantry the German troops have met reverse and are being driven back.

The plight of the Belgians as an incident of the bombardment of Antwerp, Termonde and other points are becoming even more pitiable than it was after the first advance of the Germans through the country. Doubtless, in a short time London will again be the haven of thousands of homeless, penniless and hysterical refugees.

No confirmation has been received of the report that the allies' fleet has begun operations before Pola, the chief Austrian naval base.

## HOW TO STOP STOMACH TROUBLE

Sound Advice From a Well-Known Physician

Men and women who suffer from that evil dyspepsia, indigestion, or just plain "stomach-trouble" usually seek relief in the form of some potent pills or other artificial stimulants. This, experience teaches me, is a serious error.

In this case, the distress is caused by the development of acids in the stomach—formed by the fermenting of the food. Instead of a distressing condition, something should be taken to dissolve or neutralize this acidity, when normal conditions will follow as a matter of course. This acid matter is distinctly poisonous and unless it is dissolved it will carry the mass of fermenting food from the stomach to the intestines, where the poison is absorbed by the blood and carried all over the body.

If all the acid army of people who suffer after meals, even a single dose of this acid matter would make it a point to take a teaspoonful of Bismarck's Magma in a quarter glass of water after each meal. This would make no formation of acidity and consequently no distress or discomfort.

So, acid, gas, indigestion, heartburn, belching, bloating, etc., would then be a thing of the past. "Bismarck's Magma" is a potent acid preservative. It is inexpensive and can be obtained at any drug store. It is prepared for just such trouble and the best proof of its efficiency is that it will stop the sharper, biting stomach distress in five minutes from the time it enters the stomach, simply by dissolving the acids that have been formed there. It is not a stimulant, but a neutralizer.

It is not one's slender income to be risked in an upper berth—rather askward.

## SICK CHILDREN LOVE CASCARRETS FOR THE BOWELS

Give "Candy Cathartic" for a bad cold, sour stomach, constipation.

Get a 10-cent box now. Most of the ills of childhood are caused by a sour, disordered stomach, sluggish liver and constipated bowels. They catch cold easily, become cross, fretful, irritable, feverish, restless, tongue coated, don't eat or sleep well, and need a gentle cleansing of the bowels—don't try to force a nauseating dose of oil into the little ones already sick stomach—it is cruel, needless and dangerous.

Any child will gladly take Cascarets Candy Cathartic which acts gently—never grips, never causes the slightest uneasiness—thoroughly cleanses the little ones' system, sweetens the stomach and puts the liver and bowels in a pure, healthy condition.

Full directions for children and grown ups in each box. Mothers can rest easy after giving this gentle, thorough laxative which costs only 1 cent a box at any drug store.

At the battle front, via Paris, Oct. 2.—The generals in command of the allies are full of praise for the corps of despatch riders who since the beginning of the battle of the Aisne have kept up communications between the various corps along the line now extending from the Somme to the Marne and along the frontier of Alsace Lorraine.

The corps of despatch riders is composed mostly of volunteers from better class British, many of them very wealthy youths, who night and day have made dashes through the country infested with German cavalry messengers which have been the brigades and army corps in close touch and called commanders to send reinforcements to points where they were most needed.

On many occasions these despatch riders, mounted on motor cycles, through their audacity and speed have scattered reconnoitering parties of German cavalry, sometimes facing enormous odds in their dangerous work.

German prisoners who have been taken in large numbers on the western end of the line show that the reinforcements which have arrived recently consist largely of middle aged men. Some of them are fathers with families, who have been awaiting acting army service for 10 or 15 years.

So late as last night many corps have been withdrawn to meet the Russian advance.

The German attacks in the last 24 hours seem to have become less energetic and the allies have been able to repulse them and follow them up more easily. The German practice of maintaining an incessant offensive appears to be having little effect on their human material. There are signs that exhaustion is setting in among the invaders owing to the hard fighting and the severe weather conditions. Meanwhile the allies are being given the periods of intense exertion, as fresh relays can be brought to the front at any time.

Y. W. C. A. Runnagge Sale  
The first day of the Runnagge sale being held by the Y. W. C. A. in the Mutual block, on Ramsey avenue opposite Boyle street, for the assistance of the East End Hospital, had very gratifying results, it is announced this morning. The sale continues Friday and Saturday and those in charge will be very thankful for further donations of any kind.

ZEPPELIN APPROACHES  
ANTWERP BUT BEATS IT  
AFTER HEAVY FIRING

London, Oct. 2.—A despatch from Antwerp to Reuters says that a Zeppelin was reported last night successfully over the city, but that it was driven off by the anti-aircraft fire.

Leopold, Merx, Brecht, Oostma, and Westma, and at 3:30 in the morning, the Zeppelin was driven off by the anti-aircraft fire.

It is reported that the Zeppelin was driven off by the anti-aircraft fire.

All night the Germans bombarded the fortresses of Antwerp, but the forts repulsed the attacks and proved that they were still working in.

At the battle front, via Paris, Oct. 2.—The generals in command of the allies are full of praise for the corps of despatch riders who since the beginning of the battle of the Aisne have kept up communications between the various corps along the line now extending from the Somme to the Marne and along the frontier of Alsace Lorraine.

The corps of despatch riders is composed mostly of volunteers from better class British, many of them very wealthy youths, who night and day have made dashes through the country infested with German cavalry messengers which have been the brigades and army corps in close touch and called commanders to send reinforcements to points where they were most needed.

On many occasions these despatch riders, mounted on motor cycles, through their audacity and speed have scattered reconnoitering parties of German cavalry, sometimes facing enormous odds in their dangerous work.

German prisoners who have been taken in large numbers on the western end of the line show that the reinforcements which have arrived recently consist largely of middle aged men. Some of them are fathers with families, who have been awaiting acting army service for 10 or 15 years.

So late as last night many corps have been withdrawn to meet the Russian advance.

## HON. W. H. HEARST NOW PREMIER OF ONTARIO; YOUNGEST IN CABINET

Toronto, Oct. 2.—Hon. W. H. Hearst, the baby minister in the Whitford cabinet, succeeds the late Sir James Whitney as premier of Ontario.

He is the youngest member of the House last night and entrusted with the re-organization of the provincial cabinet.

Mr. Hearst has appointed Findlay G. Macdunn, member for West Elgin, and a resident of the city of St. Thomas, as premier of Ontario.

No minister without portfolio is yet appointed to succeed Hon. J. S. Hendrie, who has just become lieutenant governor of Ontario, but the provincial treasurer, Hon. J. B. Lucas, takes Mr. Hendrie's place on the Ontario hydro-electric commission.

The other ministers have been asked by the new premier to continue in their present positions. All will be sworn in tomorrow morning.

The new premier is the youngest member of the cabinet in the history of the province. He is a compromise between the reactionary and progressive factions of the Conservative party led by Sir W. A. Hanna and Sir Adam Beck respectively.

He entered the provincial house in 1904 to represent South St. Mary, and became minister of lands, forests and mines at the time of the federal election in 1908.

He was defeated by Sir Adam Beck in 1910, but returned to the cabinet in 1911, when he was appointed premier.

## FEW MINUTES! NO DIGESTION, GAS, SOUR STOMACH—PAPE'S DIAPEPSIN

Digests all food, absorbs gases and stops fermentation at once.

Wonder what upset your stomach—what portion of the food did the damage do you? Well, don't bother. If your stomach is in a revolt; if you just ate too much, or ate what you just ate has fermented into stubborn lumps; your head aches and aches; belch gases and acids and eructate undigested food; break foul, tongue coated—just take Pape's Diapepsin and in five minutes you will wonder what became of the indigestion and distress. Millions of men and women today know that it is needless to have a bad stomach. A little Diapepsin occasionally keeps the stomach regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your food, it is a nuisance instead of a help. Remember the quickest, surest, most harmless relief is Pape's Diapepsin, which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is astonishing. Please don't go on and on with a weak, disordered stomach; it is unnecessary.

Drive Out of Some of Natural Fortresses by Charges.

## AIR SO POISONED BY INBURNED DEAD THAT REFUGEE LEAVES FORTS

French Bayonet Charges Leave Plains at Aisne Strown With Mutilated Germans—Tentacles Out of Some of Natural Fortresses by Charges.

London, Oct. 2.—A correspondent of the Daily Telegraph in France describes the fighting in the Aisne as a series of the French in the quarters where the Germans have been entrenched.

"From some of these natural fortresses," he says, "the Germans have been driven out. It is rumored that they left others owing to the unburied dead, whose bodies poison the air. A quarry near the forest of Aisne was attacked under cover of a mist by the French, who drove out the dead bodies of the Germans. The French bayonet charges have left the plains along the Aisne strewn with the dead."

"A prisoner taken here who was formerly a professor in one of the universities said that the casualties during the past fortnight have been terrible. The French bayonet charges have left the plains along the Aisne strewn with the dead."

# MARKET OPENS SATURDAY

**Basket Parade of Housewives Out for Scalp of Common Enemy---The High Cost of Living**

**NEW CENTRAL MARKET WILL BE SCENE OF GREAT HUSTLE TOMORROW WHEN THE FIRST TIME HERE PRODUCER WILL MEET CONSUMER**

First Twenty Women to Attend With Baskets Will be Given Chicken Each Free of Cost—All Arrangements Complete and Opening Promises to be Most Auspicious—Those Attending Will be Able to Buy Anything in the Line of Eatables and Clothing—Estimated that Cost of Products Can be Purchased at Almost Half the Price of that Paid in the Stores—Running Water to Run Through All Fish and Meat Stalls and Absolute Cleanliness is Assured.

War on the high cost of living has been declared in Edmonton. Manager Strata, reinforced by the housewives of the city and thirty-six merchants here, will commence hostilities Saturday morning, when the doors of the Central market will be opened for business for the first time.

Deep-laid plans for the smashing of the enemy have been evolved, and that they will carry there is not the least possible doubt. Living expenses, it is claimed, will be cut almost in two and the townspeople of Edmonton will be able to tide the financial storm that is raging in the country without being deprived of the necessities—and even the luxuries—of life.

Once the hydra-headed monster is begging for mercy it is not the intention of the army that is waging the fight against him to let him recuperate. It will be a fight to a finish. Never again will prices soar, and in future when good times come around again the savings effected by trading at the local market will be placed in the banks to the credit of the people who have hitherto paid exorbitant prices for their goods.

For the information of those who have not yet become interested in the great movement it may be stated that the new market is situated in the Empire auditorium, Second street. This is the largest hall in the city, but from appearances it is not a bit too large for the amount of business that is going to be done there. Already Manager Strata has been inundated with inquiries regarding the opening and the method which will be adopted in running the place.

A Capital representative had a long chat with Mr. Strata yesterday, and it was an interesting one. He is not only convinced, but certain, that the effort will be a great success. He remarked that he had been greatly encouraged by the interest and friendliness that has already been shown to the scheme.

"And why should not everybody in the city be interested?" he added. "It will mean a great saving to the wage earners in Edmonton. Not only the wage earners, but families who do not come under that head. Believe me, there is scarcely one that is not becoming rather alarmed at the upward trend of the cost of living."

With a floor space of 45,000 feet the Empire auditorium is an ideal place for the undertaking. Not only is it the largest hall in the city, but there are many other features about the building which make it excellent. It is well lighted, central, and there is plenty of space in the immediate vicinity for improvements which are already planned. There is a heating and ventilating system so that there will not be the inconvenience that is usual in the average market. All the stalls are nicely fitted up and that they will be kept spotless will be seen to by the manager as well as the merchants who are doing business there. All the assistants must wear white aprons and in the picturesque language of the general "a can will be tied to the first man who does not observe this rule."

The finishing touches are today being put on the inside fixings. Merchants themselves with a big squad of men are in aprons painting their stalls, while some have got so far as to be already placing their goods on view for the expectant public. The nationalities of the tradesmen are almost as varied as the stocks that will be exhibited. There is one point, however, they all have in common, and that is their great enthusiasm for the project.

One feature of the arrangements will be that in each of the meat and fish stalls there will be running water. The big advantages of this idea will be readily seen, and there is no doubt but what it will be appreciated. There will be an attendant on hand all the time who will see to it that no litter or refuse is allowed to lie for any length of time in the building.

And ladies need not be afraid to bring their perambulators along with them. There will be a place for them where the child will be looked after while the mother buys her provisions. This will take a load off the purchaser's mind, and she will be able to devote all her attention to the job of finding out what she wants and getting it.

The days of the market basket have sure returned for several ladies, well-known in social circles in the city, have stated that they will be among the first to be on hand on Saturday morning. And in this connection there is a story that should interest any lady who wishes to obtain a chicken dinner for Sunday free. Manager Strata has authorized the Capital to state that the first twenty ladies who arrive on the scene on Saturday morning will be presented with a chicken each. There's an offer that is going to take some carrying through, because there is going to be a rush at the doors as soon as they open, and a person will need to be on hand real early, judging from present indications, if a free chicken is wanted.

There is also another offer being made by Messrs. Smith and Carl which will appeal to the housewife. These well-known business men, who are opening a meat stall, want suggestions for the name of the stall. They state that they will give to the lady who suggests the most suitable, the best roast they have in the market a week from Saturday. All who join in this profitable competition are asked to write their suggestion on a slip of paper along with their own name and address. By the following Friday the prize winner will be announced in the Capital and the lucky one has only to mention her name at the stall the next time she calls there, when the roast will be forthcoming.

An attempt to describe the premises and the arrangements made would be futile. It is sufficient to say that everything possible for the convenience of the general public has been done, and any suggestions to the manager of good ideas will be appreciated, for a point which the management wishes to impress on the people of Edmonton is the fact that the market is to be run for their convenience alone.

The future has also been looked to. Those in charge wish the market to be one in every sense of the word. Very shortly there will be an extension built quite close to the present building, where poultry can be kept until such time that the owners wish to kill and place for sale. This is considered very necessary, and will be carried out as soon as possible. This will also prove very handy for out-of-town people who bring in their poultry and who, not satisfied with the price or for some other reason, want to hold their stock for a few days.

The question will naturally be asked, how can the goods be sold so much cheaper in the market than in the stores of the city? The answer is very simple. The middleman will be eliminated. The produce will be taken by the producer into the market and the housewife can purchase it first hand without having to pay profits to two or three for handling it.

## Complete List of Stall Renters

## MARKET SHOPPING IS REVIVAL OF OLD EUROPEAN CUSTOM

The sound advice to all women of the city is to get a market basket and get on hand early on Saturday morning. By so doing a severe blow will be dealt the common enemy, The High Cost of Living, and Edmonton will be even a better place to live than at the present time—which, by the way, is saying something.

There are some people who do not understand why it is possible to buy meats, vegetables, produce and all foodstuffs cheaper at a market than at a grocer's or meat shop, but looking thoroughly into the matter it is quite evident that the former method of shopping is actually much more economical for the housewife than the latter. In the first place the grocer is usually merely a middleman who buys neither direct from the producer and is seldom if ever the grower of his foodstuffs, so that actually his function is to bring the produce in touch with the consumer rather having a part in the real growing or production of it. The elimination of this man's profits and services has long been a desideratum on the part of careful providers.

It is a well-recognized condition of affairs that one of the chief reasons for the high cost of living is the somewhat convenient, but highly expensive system of shopping as has grown up on the part of the women of Canada and United States. This method of shopping has been attributed by the commissions appointed to investigate this matter by the governments with being one of the principal causes of the almost prohibitive high cost of living, or as some wag has termed it, the cost of high living.

Mrs. Housewife, did you ever stop to consider just how much you pay each year and each week in the service the grocer gives you? Please appreciate the fact that your grocer and butcher are not in business for their health or simply to accommodate you, but that they are in business for the sole purpose of making money. Of course, to make that money they are attentive, courteous, have fine stores,—in short they give you service. But, please remember they give you this service for the service for the pure purpose of making money, and it is only because they can make more money that they give you the service. We know it is very convenient to simply go to the 'phone and order a few groceries or the meat for the day. It is handy to have the grocer's boy, or wagon or motor delivery, as the case may be, to bring your order to the door a few minutes after you have expressed your desire. It is a splendid thing to have the boy call upon you each morning for your possible wants during the coming day. The week-end price list of special offerings and timely suggestions which your grocer mails to you is full of ideas and well thought out hints. It is a recognized fact if not fully appreciated at all times that the modern housewife secures her daily provender with less effort than did queens of a few years ago. But, the madame must remember that she, and she alone pays for all these conveniences. When you step to the 'phone and order a 25-cent piece of meat for lunch do you ever stop to consider just how much extra expense is involved—just how much you pay for beside the meat itself? In the first place is the added expense of the telephone; the grocer keeps a 'phone merely for such purposes; and you, although you may not recognize it, are, with the other customers, paying for that telephone. The boy or wagon, or motor car, as the case may be, when delivering this 25-cent piece of meat has to be paid, and it is always a fact that a goodly share of the price commodity is to cover the expense of delivery of same. Then, when you realize that the grocer or butcher himself is only a middleman with a high rental and heavy running expenses, you can gather some kind of idea how much bigger that piece of meat might have been for 25 cents, or how much less than 25 cents the same piece would have cost if you had not had to pay for the service. A few minutes reflection will soon show you, Madame Housekeeper one reason for the present high cost of living.

The purpose of the market is the elimination of these extra expenses and which makes possible the buying of the foodstuffs with greater economy on the part of the housewife. This, to an extent, is merely reverting to the old system in vogue hundreds of years ago in Europe and still largely practised there. It is a curious sight to observe those hundreds of European wives bickering for their daily foodstuffs at any of the markets in the principal cities throughout the continent and England. Much of the thrift and economy of the European nations is a direct result of this shrewd buying by the housewives themselves in the open market where competition is keen among the various stall holders.

The central public market of Edmonton is simply a revival of this well honored practise of thrift and economy which has been in vogue ever since the medieval ages. Since the war has broken out public markets have sprung up all over the Dominion of Canada, and are being largely patronized by the housewives who are now anxious to economize in the price of their foodstuffs. Going to the market direct, and buying where competition exists and often direct from the producers, then carrying home their purchases, a considerable saving can be effected.

Mrs. Housewife get the habit and practise thrift and economy in the days when it is so essential. Go to market yourself instead of using the 'phone, choose wisely, and then above all means carry home in your market basket your meats and vegetables instead of paying all of those more or less unnecessary extra costs.

# SPORTS

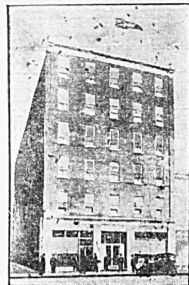

The afternoon game was very one-sided, Hoppe winning by 500 points to Innman's 56. The ballkine championship was extended into the evening by the necessary number of caroms but in the ninth and eleventh innings, with 141 and 156, he made the highest runs up to this stage of the match.

Apply E. J. STRATTA, at the Market.

### FRENCH "REFORMES" NOT CALLED YET, BUT SHOULD SEND NAMES TO CONSUL

All French citizens belonging to the undermentioned classes are requested to send their names and addresses by registered mail at once to the French consular agent, P.O. box 619, Calgary: 1. The men belonging to classes 1887 to 1912 both inclusive, which have been exempted from military service on the ground of ill-health. 2. The men exempted in a similar way or whose examination has been postponed, belonging to the classes 1913 and 1914. 3. Those born in the year 1885. In view of the fact that an item of news was published in last Tuesday's paper saying that young men being "reformés" have left Edmonton to join their regiment after having been called, we have authority to state that the "reformés" have not been recalled as yet; they are only requested to send their names to the French consular agent and must not leave before they are instructed to do so.

### GRAND TRUNK PACIFIC OFFICIAL SAYS BACK TO LAND MOVEMENT HEAVY

"We read every day about the 'back to the land' movement," said a Grand Trunk Pacific official Friday, "but you don't know anything about it. 'Not by a long way,' nor by scores, but by hundreds, are the men and their families going back to their home-lands and farms. The back-to-the-land movement started some weeks before the war, and has increased gradually ever since. Many of them are men who had their homesteads years ago and got their patent. When times got so very hard, they sold them, came here and accumulated money and now they are returning with stock and outfit to their homelands. He stated that the railroad gave a half rate on car load lots of settler's goods and that where stock was being shipped, one man was allowed to ship free, to look after them. "And by the way," he concluded, "that they can live better on the land."

### EDMONTON IN BRIEF

In accordance with orders received from headquarters at Calgary, the signalling section of the 19th Alberta Dragoons may erect temporary wireless stations for purposes of instruction only, and with expense to the public. The O. C. signalling section, or one of his non-commissioned officers must install these practices, which are signalling for sending or receiving news is not permitted in this district, except by government supervision, and then only by special authority. The adjutant has received orders from the officer of the regiment that this order be properly carried out.

A meeting of all the men who signed cards to join the Highland regiment now forming in Edmonton will be held in the hall corner of Howard and Elizabeth, on Monday evening next, at 8 o'clock. All Scotsmen and others interested are invited to the meeting, at which organization and enrollment will take place.

The 21st International Irrigation congress will be held in Calgary from October 2 to 8, inclusive. There will be delegates from every state in the union and a splendid program has been arranged. One day of the congress will be devoted to a trip free to delegates, covering 160 miles journey from the irrigation office of lying to the east of Calgary, and a visit of inspection to the Horse Shoe Bend dam, near Banff. The city of Edmonton has been invited to send delegates, and Mayor McNamara will be pleased to see them. The city of Edmonton will attend the congress as representatives of Edmonton. Credentials may be obtained on application at the mayor's office.

Gerald V. Pelton, barrister, has been succeeded to his position by a large number of citizens among them being Arthur Murphy, J. F. McCallum, L. Macdonald, L. F. W. Wilson, Alex. Stuart, L. Aronau, W. J. Wright, C. W. L. Mackenzie and others.

Harry Walt, a Russian, who came out with some home companions on Thursday evening, became slightly intoxicated and started to drink beer at one of his companions. He was arrested and in the police court on Friday morning was assessed \$10 and costs or one month in jail.

Max Ramm, formerly a sailor in the German navy and recently janitor in the city police station, who stole some furniture from a veranda on Victoria avenue on Thursday afternoon, was fined \$5 and costs by Magistrate Fletcher on Friday.

That Alberta's gift of 5000 bags of flour for the Belgian sufferers will cost the provincial government approximately \$15,000, is the statement of Hon. P. J. Macdonald, minister of agriculture. This is at the rate of \$3 per bag.

The city commissioners are desirous of putting into effect the plan of new street names as adopted over six months ago. Commissioner Chalmers when in office, refused to adopt the plan, but the city council, who are now in session, have decided to do so. The plan will be changed accordingly.

Commissioner Chalmers and Deputy Commissioner of Finance, Richard B. Macdonald, have vacated their offices in the city hall. Until such time as the new division of duties is arranged, matters pertaining to the commissioners will be dealt with by the commission board and signed by the two remaining commissioners.

There will be no further purchasing newspapers in street cars. The small "newsies" as he beats his way past the conductor and up the aisle of the car, moving slowly, will be discontinued. The city commissioners are determined to put a stop to having the newsies jump on the cars. His reason is that the newsies are a nuisance to the public and have occurred in the city recently. One action against the city about a year ago was for \$10,000 and brought by the guardians of a newsboy who was badly injured. From this time on, newsies must pay a fine to ride on the cars and will not even then be allowed to sell papers on the cars.

The committee which has charge of the collecting of the subscriptions for the Canadian Patriotic and civic relief fund report that to date in the neighborhood of \$55,000 has been collected. In addition to this will come one-half of the amount from the city service fund which will be about \$10,000. It is hoped that before the campaign is completed that a sum nearer \$100,000 will have been secured. The other half of the civic service donation will go to the southern branch of the fund whose headquarters are in Calgary.

Willis Chipman of Toronto, consulting engineer for the city, is preparing a report on all power offers recently made to the city and has written the commissioners asking that plans of locations and transmission lines in connection with the offers be forwarded him. His reports are expected to be ready within the next six months.

Premier Sifton returned from Calgary on Thursday, where he was present at the organization of South Alberta Patriotic association. The division line in the southern boundary of township 46, which for the most part is the north line of the Red Deer constituency. The premier stated that the monthly contribution of the provincial civil servants will be divided equally between the two funds.

### JUDGMENT TO BE GIVEN MONDAY IN APPLICATION UNSEAT MAYOR AND EAST

In the action of Ex-Alderman Livingston in the supreme court to unseat Mayor McNamara and Alderman East, Thursday afternoon Justice Ives cut short the argument of C. A. Dickson, appearing for Mr. McNamara, and Mr. East, made his short statement and ended the hearing by reserving judgment when judgment will be given.

This is the second time the case has been before the court. The first time the action against the defendants were heard jointly and the case dismissed, with the privilege of having them heard separately. This was done in the case heard Thursday. The claim against the defendants is that they did supply money for the drilling of the well, which was the purpose of the well by the city if it was found in paying witnesses. Members of the industrial association have agreed to supply funds for the drilling of the well.

### FAMOUS MINER IS TODAY "WORKING" ON SASKATCHEWAN

Fifteen Years Ago Sold Celebrated "Foley" Find in Port Arthur District.

**BELIEVES BIG STRIKE  
WILL BE MADE NORTH  
Once Said to Have Been Worth  
Quarter Million, Now Busy  
With Grizzle.**

The name of Tim Foley, old-time miner, prospector and general good fellow, is known to many in Canada today. Scarcely a week ago he has been written about in local and national papers. He has been read and re-read. And then his picture appeared in more than one mining journal of 15 years ago, as being the man who owned the Saskatchewan mine, the high level bridge for gold. Those are the facts, and a visit to the river will reveal the truth of the statement.

For Tim Foley, somewhat bent with the weight of years of toll and with the color of his hair turning gray, is today, with pick, shovel, pan and grizzle, working the gravel of the Saskatchewan mine, the high level bridge for gold. Those are the facts, and a visit to the river will reveal the truth of the statement.

Those are the facts, and a visit to the river will reveal the truth of the statement.

### CHINESE HOMESTEADER WOULD JOIN REGIMENT TO FIGHT FOR BRITAIN

What are believed to be only Celestial homesteaders in Alberta, Charlie Wah and Sam Wing, are today renewing old acquaintances among the Chinamen of the city.

It is now two years ago since Charlie Wah and Sam Wing, on horseback side by side, some eight miles northwest of Edmonton, saw their first visit to Edmonton since that time. The men formerly operated a laundry on Nanaimo avenue here, and during their four years residence collected sufficient funds to give them a reasonable start on their land. The Chinamen are anxious and report success on their land.

They have not seen other Chinamen from the time they first went to their homesteads until arriving in Edmonton this week, nor had they heard about the war until they arrived here. One of their first questions after hearing about the war, was if there was to be a Chinese regiment sent to the aid of Britain. Charlie Wah claims to have at one time been captain of school boys' cadets in Hong Kong.

### EX-POLICEMAN GETS \$50 FOR INJURY TO REP; HE SUED FOR TEN THOUSAND

Claiming \$10,000 damages to his reputation, James Campbell, ex-policeman for the city, brought action in the supreme court before Justice Ives against George Nicholson. On Friday morning he was awarded \$50 and costs.

### CITY RELIEF DEPARTMENT WILL GLADLY TAKE ANY SURPLUS OF CHICKENS

The 1914 chicken season is open and the civic relief department will be pleased to receive any surplus birds hunters may bring in.

There are many instances where men go out just after the chickens get a considerable number and let many of them go to waste.

There are numbers of families who have not tasted butcher meat or fish of any kind for weeks and some for months.

If any parties will advise the relief department of their gifts they will be on call for the chickens and place in storage and see they are distributed wisely throughout the city.
